Capital Project Updates

2016 Capital Improvements Project

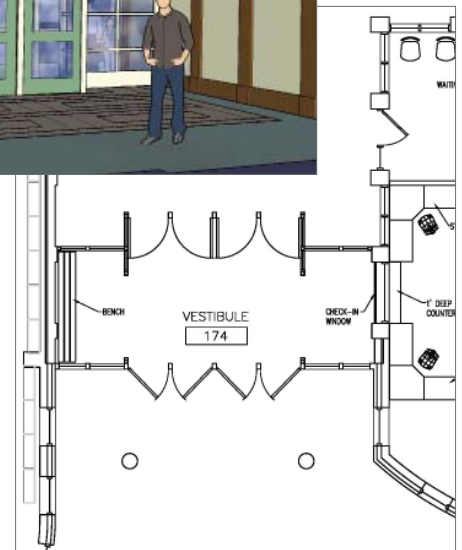

The 2016 Capital Improvements project that was approved by voters in December 2015 is progressing well. Phase 1 of the project has been submitted to the State Education Department for review. We are hoping to receive their approval soon so that the project can be bid and construction can occur over the coming summer. The programming aspects of Phase 2 are complete and we are proceeding with Design Development drawings. During Design Development, the details of the project are further refined, and specifics of the building systems, materials, and finishes are finalized. The following images were created during the programming stage of Phase 2 to convey the design intent of various renovated areas within the buildings.

High School fitness room

Secure vestibule at George F. Johnson

Secure vestibule at Ann G. McGuinness and Thomas J. Watson

2016 \$100K Project

The 2016 \$100K Project includes the construction of a secure vestibule at the High School, along with an adjacent information office. Construction is planned to take place in the summer of 2016.

2015 Capital Improvements Project

The bid for Phase 3 of the 2015 Capital Improvements Project has been awarded. It is scheduled for construction over the summer months. Phase 3 includes pavement reconstruction at the High School. The entry and drop-off area at the west side of the building will be modified to improve safety for our students.
